the last part 3 "Laser Diagnostics" comprising three chapters, is devoted mainly to advanced experimental diagnostics techniques for material integrity, mechanical stress, deep level defects, various dynamic laser degradation effects, surface- and interface quality, and most importantly heating and disordering of mirrors and mirror coatings. It forms part of a metrical chap-book history, founded on the same story as the Friar and the Boy, entitled "The Pleasant History of Jack Horner, containing his witty tricks and pleasant pranks which he played from his youth to his riper years: right

pleasant and delightful for winter and summer's recreation," embellished with frightful woodcuts, which have not much connectioji with the tale.
